

LPG® ENDERMOLOGIE

What is medical LPG® Endermologie?

It is a 100% natural, non-invasive anti-ageing treatment made possible by mechanically stimulating your cells. Using the latest CELLU M6® ALLIANCE Machine, the treatments help fight water retention by working on the lymphatic system, reoxygenate the skin thus prompting a feeling of wellbeing as well as releasing fats and smoothing out cellulite.

These results are achieved by using a machine with a motorised roll and flap, delivering a more intense, yet pleasant, stimulation of the skin surface to reactivate natural physiological processes in-depth.

Performed by a trained professional, the sessions help treat all connective tissue transformations (such as burns, scars, fibrosis, etc), circulation problems, and muscle pathologies (lesions, contractions, etc) naturally and painlessly without any side effects.

These treatments considerably reduce physical signs and symptoms (such as erythema, induration, pain, loss of joint mobility, muscle tensions, stiffness, soreness, etc) to pave the way for a rapid return to an active live without any discomfort.

Using LPG® Endermologie here at BeZu, we can tailor treatments to clients' individual medical needs. Once meeting our clients and going through the initial consultation we can set up treatment plan tailored to them.

TREATMENTS

SWEDISH MASSAGE

Intense muscle massage using Swedish techniques. This involves the manipulation of deep soft body tissue for therapeutic purposes. It can be used for relaxation, stimulation or rehabilitation of the whole body, or parts of it. It promotes suppleness of the muscle, improves circulation and reduces stresses.

AROMATHERAPY MASSAGE

Aromatherapy massage uses Swedish techniques that use oil or lotion that contains essential oils (highly concentrated plant oils). Aromatherapy treatments will be tailored to each individual client's needs. During your aromatherapy treatment, you inhale these essential oil molecules or absorb them through your skin. Aromatherapy uses aromatic essential oils medicinally to improve the health of the body, mind and spirit. It enhances both physical and emotional health.
