

LPG® ENDERMOLOGIE

What is medical LPG® Endermologie?

It is a 100% natural, non-invasive anti-ageing treatment made possible by mechanically stimulating your cells. Using the latest CELLU M6® ALLIANCE Machine, the treatments help fight water retention by working on the lymphatic system, reoxygenate the skin thus prompting a feeling of wellbeing as well as releasing fats and smoothing out cellulite.

These results are achieved by using a machine with a motorised roll and flap, delivering a more intense, yet pleasant, stimulation of the skin surface to reactivate natural physiological processes in-depth.

Performed by a trained professional, the sessions help treat all connective tissue transformations (such as burns, scars, fibrosis, etc), circulation problems, and muscle pathologies (lesions, contractures, etc) naturally and painlessly without any side effects.

These treatments considerably reduce physical signs and symptoms (such as erythema, induration, pain, loss of joint mobility, muscle tensions, stiffness, soreness, etc) to pave the way for a rapid return to an active life without any discomfort.

Using LPG® Endermologie here at BeZu, we can tailor treatments to clients' individual medical needs. Once meeting our clients and going through the initial consultation we can set up treatment plan tailored to them.

SIGNATURE TREATMENTS

Fluid Mobilisation | 45 Minutes £139

Stimulates circulatory exchanges to fight water retention and drains toxins: the skin is “re-oxygenated” for an immediate boost.

Relaxation | 40 Minutes £139

Unwinds areas with muscular tension, eliminates stress and brings a profound sensation of relaxation for body-mind balance.

Endermopuncture | 1 hour 15 minutes £160

An exceptional treatment that stimulates adipocytes (slimming cells), fibroblasts (rejuvenating cells), and their environment for maximum effectiveness. Slim the body and smooth away the appearance of cellulite. This would be a great maintenance treatment and required monthly following an initial course.

LPG Endermowear (Patented Technology) £25

LPG Endermowear is an exclusive technical outfit that allows for deep massage and optimal visibility of tissue during endermologie treatments. Light and breathable, this personal outfit permits a more intense impact and ensures a perfectly comfortable treatment.

TREATMENTS

SWEDISH MASSAGE

Intense muscle massage using Swedish techniques. This involves the manipulation of deep soft body tissue for therapeutic purposes. It can be used for relaxation, stimulation or rehabilitation of the whole body, or parts of it. It promotes suppleness of the muscle, improves circulation and reduces stresses.

AROMATHERAPY MASSAGE

Aromatherapy massage uses Swedish techniques that use oil or lotion that contains essential oils (highly concentrated plant oils). Aromatherapy treatments will be tailored to each individual client's needs. During your aromatherapy treatment, you inhale these essential oil molecules or absorb them through your skin. Aromatherapy uses aromatic essential oils medicinally to improve the health of the body, mind and spirit. It enhances both physical and emotional health.
